Jay Trahan

The Government Work band is the duly authorized local representative of the Texas Department of Rock and Roll! We are empowered (License #8008135) to administer your recommended daily requirement of Classic Rock!

Jay started playing Classic Rock music when it was called Top 40. Johnny learned American Roots music at his uncle's knee. The two friends have built their own style together for the last twenty years while raising their families.

In early 2006 the stars aligned so that a band could come together. Johnny and Jay turned to Keith, a Berklee College of Music alumnus, former bandmate and friend who plays regularly in the North Texas/Oklahoma area. When it was discovered that Rob, who had learned guitar from Jay and Johnny, was now studying bass at UT Arlington, the organic growth of the band was complete!

"I want to cover different, interesting, relevant music, and have a great time doing it!" - Jay

"Let's play the songs we like, and play them like we want to hear them! And hey, I've got these originals -- " - Johnny

"Will you guys quit arranging and play, already?" - Keith

"More cowbell!" - Rob

Available for charity and municipal functions as well as private parties, Government Work is the Right-Thinking Citizen's party band! A diverse songlist performed with a sense of play delivers the boogie to both your brain and your body! Go GW!
